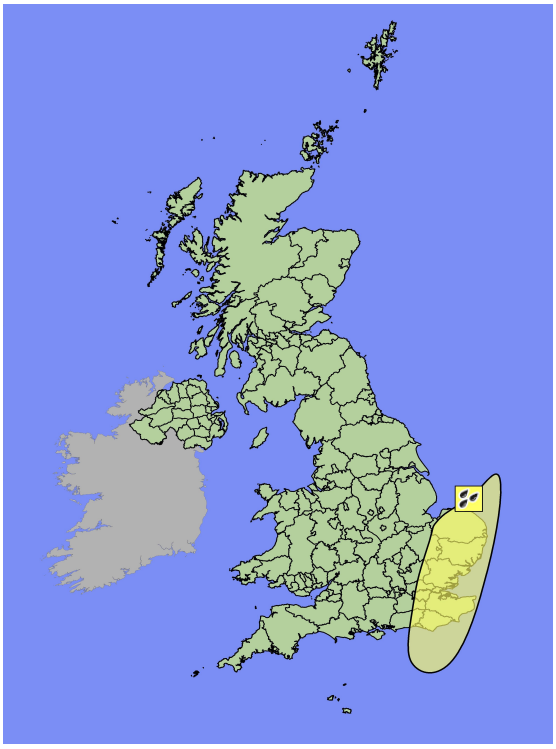
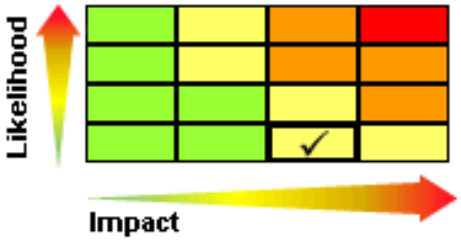
National Severe Weather Warning Service





Chief Forecasters Assessment
Whilst temperatures have peaked, a residue of heat and humidity over East Anglia and southeast England is likely to generate scattered thunderstorms. Most will not be intense, but isolated torrential downpours are still possible.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **00:00 on Tue, 28th Jun 2011** until **20:00 on Tue, 28th Jun 2011**

Heavy showers and thunderstorms on Tuesday have the potential to bring localised rainfall totals of 20-40 mm in a few hours, with a risk of flash flooding and large hail.
